EXHIBITOR GUIDE

SPRING MEETING
MARCH 22-25, 2017

***“COME AND BE BOWLED
OVER BY THE PRODUCTS,
INFORMATION AND SOLUTIONS OUR
VENDORS PROVIDE FOR OUR
LABORATORIES!”***

Booth 1.....Anaerobic Systems

Manufacturer of Pre-Reduced Anaerobically Sterilized (PRAS) culture and transport media. Media is sterilized, poured, & packaged without oxygen. Ready to use out of the package with no need to pre-reduce the media. Manufacturer and distributor of ergonomic & maintenance free anaerobe chambers. New web based anaerobe educator training software.

Contact: SteveCox@anaerobesystems.com

Booth 2.....GenMark Dx

GenMark is a leading provider of high multiplex molecular diagnostic solutions designed to enhance patient care and improve the lives of patients and their families. GenMark's ePlex true sample-to-answer system optimizes the efficiency of laboratories and offers a broad range of infectious disease testing, including respiratory, bloodstream, gastrointestinal, and central nervous system infections.

Contact: info@genmarkdx.com

Booth 3.....IMMY

IMMY focuses primarily on manufacturing rapid, high-quality fungal diagnostics. With products for cryptococcus (CrAg® LFA), histoplasma, coccidioides, aspergillus, and blastomyces, along with mycobacteria specimen preparation reagents (MycosDDR™), IMMY is setting the standard with accurate and affordable diagnostics for infectious diseases. Our goal is to create, and distribute, diagnostics that give health professionals and laboratorians a clear path of treatment for patients worldwide. IMMY is bridging the gap between fungal infections and proper treatment by Saving Lives One Diagnostic at a Time.

Contact: tiffany-nguyen@immy.com

Booth 4.....Hardy Diagnostics

Hardy Diagnostics manufactures and distributes products for microbiological testing in clinical, research, and pharmaceutical laboratories. You can choose from a complete selection of over 8,000 microbiology and laboratory products including StrepB Carrot Broth, various AnaeroGRO tests, Rapid Tests and Reagents, and Susceptibility testing. Shipments are delivered quickly, usually the next day due to Hardy Diagnostics' extensive network of nine distribution centers across the US. You can also rest assume knowing that your supplies are manufactured in an ISO certified factory.

Contact: sales@hardydiagnostics.com or call (800)-266-2222.

Booth 5.....**Alpha-Tec**

Clinical diagnostic products from Alpha-Tec: For more control, improved accuracy and ease-of-use.

Contact: Shawn Duckett, S.Duckett@alphatecsystems.com

Booth 6/7.....**BioFire**

BioFire Diagnostics, a wholly owned subsidiary of bioMérieux, manufactures the sample-to-answer FilmArray® system, which provides syndromic infectious disease testing that may lead to improved patient outcomes and reduced costs. Industry leading Respiratory (RP), Blood Culture Identification (BCID), Gastrointestinal (GI), and Meningitis/Encephalitis (ME) Panels, all FDA-Cleared and CE-IVD products, each simultaneously test for the most common targets in about an hour, providing fast, comprehensive results.

Contact: info@biofiredx.com or Joan.Lamprecht@biofiredx.com

Booth 8.....**ZeptoMetrix**

ZeptoMetrix™ Corporation (ZMC) is an Industry Leader identified with quality, reliable and trusted Products for Infectious Disease Diagnostics.

ZeptoMetrix QC panels and controls are prepared from Purified Microorganisms. Our Quality Controls are available for Viral, Bacterial, Fungal and Parasites. **Molecular Controls**, NATtrol™ QC Panels and Controls: Provide Consistent, Reliable and Accurate Quality Control Solutions, Matrix mimics a True Clinical Specimen, Contains the entire Microorganism Genome not synthetic sequences or purified RNA/DNA, Non-Infectious & Refrigerator Stable and Ready to Use.

Website: www.zeptometrix.com.

Contact: lwilcoski@zeptometrix.com

Booth 9.....**MiraVista Diagnostics**

MiraVista Diagnostics is a specialty reference laboratory with a focus on providing clinical testing services to aid in the diagnosis and treatment of serious fungal infections. We offer the highest standards in clinical sensitivity and specificity for detection and monitoring of *Histoplasma capsulatum*, *Blastomyces dermatitidis*, *Cryptococcus*, *Coccidioides*, *Aspergillus* and 1→3 β-D glucan. MiraVista Diagnostics is committed to providing accurate, high-quality testing, with rapid turnaround time.

Contact: Janet Raymond, jraymond@miravistalabs.com

Booth 10.....Grifols Diagnostic Solutions, Inc

Grifols Clinical Diagnostic Solutions Division supports Laboratory Clinicians in the diagnosis of Autoimmune and Infectious Diseases by providing high quality Immunology & Serology instrumentation, reagents and services. Market areas include Hospital & IDN/Healthcare System Clinical Laboratories, Commercial Reference Laboratories, University Clinical Research and the Bio/Pharmaceutical Industry in more than 90 countries around the world.

Grifols is a global healthcare company based in Barcelona, Spain with key North America corporate offices located in California and North Carolina. Website:

<https://grifols.com>

Contact: paul.gries@grifols.com

Booth 11.....Puritan

Booth 12.....McKesson Lab Solutions

Booth13/14.....bioMérieux

A world leader in the field of in vitro diagnostics for more than 50 years, bioMérieux is present in more than 150 countries through 42 subsidiaries and a large network of distributors. In 2016, revenues reached €2,103 million, with 90% of international sales. bioMérieux provides diagnostic solutions (reagents, instruments, software) which determine the source of disease and contamination to improve patient health and ensure consumer safety. Its products are mainly used for diagnosing infectious diseases. They are also used for detecting microorganisms in agri-food, pharmaceutical and cosmetic products.

Contact: Sherry Hightower, sherry.hightower@biomerieux.com

Booth 15.....IN State DOH Laboratories

The Indiana State Department of Health Laboratories (ISDHL) provides high quality laboratory tests, data, and interpretations to federal, state, and local health, environmental, and food protection programs. This testing is critical for effective, efficient detection and response to public health emergencies and for surveillance and detection of communicable diseases, environmental hazards and food contaminations. Through our Outreach Team, ISDHL also offers educational trainings to external partners including phlebotomy, blood lead testing, packaging and shipping, 1st Responder training and Biothreat Agents 101; specialty workshops have included CP-CRE and Mycology.

Contact: Jyl Madlem, MS, MT(AMT): jmadlem@isdh.in.gov

Booth 16.....**Illumina**

Booth 17.....**Alere**

Alere is a world leader in rapid diagnostics at the point of care with a focus on cardio metabolic disease, infectious disease and toxicology.
Rosemary Rothkopf, rosemary.rothkopf@alere.com or 317-443-1725.

Booth 18.....**Advanced Instruments**

Featuring the Anoxomat™ anaerobic system--the precise automated solution for bacterial culturing, in a jar, in less than 3 minutes. Anoxomat eliminates hazardous waste, handling, and costs associated with chambers and gas-bag systems. And our new ergonomic jars are lighter, easier to use, and take up far less room.

Contact: Terrie Piccirilli, terriep@aicompanies.com

Booth 19.....**Luminex**

Luminex Corporation is committed to creating innovative, breakthrough solutions to help our customers improve health and advance science worldwide. We serve the needs of our customers in diverse markets including clinical diagnostics, pharmaceutical drug discovery, biomedical research, genomic and proteomic research, and personalized medicine. Our goal is to transform global healthcare and life science research through the development, manufacturing, and marketing of proprietary instruments and assays that deliver cost-effective, rapid results to clinicians and researchers. For further information, please visit www.luminexcorp.com.

Contact: cpindexter@luminexcorp.com

Booth 20.....**Meridian**

Meridian Bioscience is a leading manufacturer of innovative diagnostic tests, purified reagents and biopharmaceutical enabling technologies that help deliver answers. Our diagnostic products are used outside of the human body and require little or no special equipment. The Company's products are designed to enhance patient well-being while reducing the total outcome costs of healthcare. Meridian's diagnostic products provide Definitive Answers, Confident Results® through accuracy, simplicity and speed for the early diagnosis and treatment of medical conditions, such as *C. difficile*, Group B *Streptococcus*, Group A *Streptococcus*, *H. pylori*, foodborne diseases and respiratory infections. Visit Meridian's website at www.meridianbioscience.com.

Contact: Linda DeRose – linda.deroserose@meridianbioscience.com

Booth 21/22/23.....BD

Supporting decisions that make a difference

At BD, we know the thousands of decisions you are faced with every day can be challenging. With advanced technology designed for accuracy and efficiency for clinical and industrial applications, our solutions help you realize the transformative impact of trusted results.

Contact: Luke_Lambert@bd.com

Booth 24.....Bruker

Bruker Corporation is a leading provider of analytical systems for diagnostic applications. Led by innovative, easy-to-use and cost effective systems for Microbial Identification, the industry leading MALDI Biotyper CA System produces identifications in minutes with minimal reagents from primary culture.

Contact: Colleen Denholm, Colleen.Denholm@bruker.com

Booth 25.....Epigenomics

Booth 26.....Magnolia Medical Technologies

Magnolia Medical Technologies develops innovative medical products that achieve predictable, high-quality outcomes. The company's first product SteriPath is the only clinically proven blood culture collection solution that maintains consistent, sustainable contamination rates as low as 0.2%. By enabling providers to consistently execute best practices, SteriPath virtually eliminates false positives—mitigating previously unavoidable clinical and financial risks, reducing unnecessary treatment, and ensuring optimal patient outcomes.

Contact: Michael.Fleming@magnolia-medical.com

Booth 27.....Cedarlane

CEDARLANE® (www.cedarlanelabs.com) is an ISO9001, ISO13485 registered company that specializes in providing high quality reagents & consumables for your lab. We offer one of the most extensive product listings in North America allowing our customers the opportunity to "Consolidate & Save". Featuring products from SSI Diagnostica including their Immulex™ S. Pneumoniae Omni latex kit, Antisera, ELISA and PCR kits. Media, rapid tests, and related products will also be displayed.

Contact: Jessica Johnston; Jessica.johnston@cedarlanelabs.com

Booth 28.....**Microbiologics**

Microbiologics is the leading provider of ready-to-use QC microorganisms for quality control testing in the clinical, pharmaceutical, food, water and educational industries. With over 900 strains available in a variety of user-friendly formats, we offer the largest and most diverse line of QC microorganisms including QC Sets for instruments, Molecular Standards, Parasite Suspensions, and Microbiology Slides.

Contact: Kelly Hedlund, Midwest Area Sales Manager, khedlund@microbiologics.com

Booth 29.....**Current Technologies**

Current Technologies is a certified small, woman-owned manufacturer of disposable products that assist in infection control. We make EPA-registered **Hype-Wipe® Bleach Towelettes** and **Bleach-Rite® Disinfecting Spray** which contain a stabilized 1:10 bleach solution, have an 18-month shelf-life, and can disinfect micro instruments.

Hype-Wipes® and **Bleach-Rite®** are efficacious against C-diff spores, E. coli, TB, Hepatitis-A+B+C, CREs, plus numerous additional pathogens. Another product line - - **Orange Bio-Hazard** wipes/liners - - have a white absorbent side with a plastic backing to prevent leak through and cross-contamination; useful when handling contaminated objects (blood tubes/specimens), containing aerosol, cleaning up spills.

Contact: shannon.payne@currtech.net

Booth 30.....**ELITechGroup Molecular Diagnostics**

ELITechGroup Molecular Diagnostics is showcasing ELITe InGenius®, an open, flexible, and easy to use sample-to-result solution for standardizing complex real-time PCR assay workflows. By combining automated extraction, thermal cycling, and liquid handling on a single platform, ELITe InGenius® provides laboratories unprecedented performance, and efficiency for laboratory developed procedures.

Contact: d.do@elitechgroup.com (Dannielle Do)

Booth 31.....**Oxyrase, Inc.**

Oxyrase, Inc. is a ISO9001:2008 certified biotechnology manufacturing company focused on providing our unique oxygen removal technology. Our proprietary product is an enzyme system that efficiently and specifically removes oxygen from liquid, semisolid, and indirectly from gaseous environments. Specializing in PRAS plated media for anaerobes and enzyme products. The Oxyrase Enzyme System is also known as Nature's Antioxidant. This year we're launching a new line of three preservation products to protect and preserve all biological material. OxyStasis allows you to get out of your ultra-low freezer and into a standard freezer! Stop by our booth to learn more. **Contact:** Lisa Stewart, l.stewart@oxyrase.com

Booth 32.....OpGen, Inc.

OpGen is harnessing the power of informatics and genomic analysis to protect patients against infectious diseases in hospitals and healthcare networks. Our Acuitas® CLIA-certified clinical laboratory service provided rapid detection and high resolution analysis of antibiotic resistance. Our FDA-cleared AdvanDx, QuickFish® products rapidly identify pathogens in positive blood cultures.

Contact: Sharon Lang, slang@opgen.com

Booth 33.....Quidel Corporation

Quidel Corporation is a California-based leading diagnostic healthcare manufacturer serving to enhance the health and well-being of people around the globe through the development of diagnostic solutions that can lead to improved patient outcomes and provide economic benefits to the healthcare system.

Contact: Hans Song (hans.song@quidel.com)

Booth 34.....Scientific Device Laboratories

Scientific Device Laboratory makes an array of innovative products for clinical laboratories and academia. These include custom printing and coating of microscope slides, microfluidics, rapid stains, control slides, lab work aids, OEM components, the MiPlatform microscope smartphone adapter, and much more. With over 37 years' experience in providing high-quality products to American, European, and Asian customers, our quality methods deliver product that gives our customers the right cost and quality advantage. We are continually developing innovative OEM products in the medical device, microbiology, and the microfluidics fields.

Contact: Troy Sandidge - troys@scientificdevice.com

Booth 35.....DiaSorin Molecular

DiaSorin Molecular LLC manufactures and distributes molecular diagnostic products worldwide helping laboratories to streamline workflow and improve patient management. Our Simplexa® molecular menu includes kits for HSV-1 & 2, Flu A/B & RSV, Group A Strep and *C. difficile*. Additionally, our menu includes over 50 primer pairs and general purpose molecular reagents.

Contact: tiffany.monreal@diasorin.com

Booth 36.....DiaSorin, Inc.

DiaSorin Inc. offers the broadest, fully automated Infectious Disease and Specialty Diagnostics menu including Best-in-Class Vitamin D. These quality assays are analyzed on the versatile LIAISON® XL platform. We provide value through sales, service and support solutions to Hospital and Reference Laboratories by consolidating their menu in order to streamline processes and increase efficiency. **Contact:** travis.smyre@diasorin.com

Booth 37.....Sekisui Diagnostics

Presenting the OSOM brand of rapid diagnostic test for the detection of infectious disease. Specifically the CLIA waived OSOM Trichomonas, OSOM BV, and OSOM Ultra Flu. **Contact:** bill.lewallen@sekisui-dx.com

Booth 38.....Perkin Elmer

PerkinElmer, Inc. is a global leader committed to innovating for a healthier world. With our proprietary nucleic acid isolation technology, fully integrated automated library prep, robust sequencing chemistries, sample quality quantitation and visualization tools for analysis of complex sequencing data, we help you deliver top-quality samples for world-class genomics research from start to finish.

Booth 39.....Merck & Co

Booth 40.....Accelerate

Accelerate Diagnostics, Inc. is an in vitro diagnostics company providing solutions that improve patient outcomes and lower overall healthcare costs of serious infections through rapid diagnosis and optimization of treatment. To address antibiotic resistance, overuse of antibiotics and other challenges, the Accelerate Diagnostics team is focused on developing and integrating technologies to fully automate and expedite the susceptibility testing of infectious pathogens. This earlier, clinically actionable information about the response of infections to a range of antibiotics enables clinicians to optimize therapy faster for their patients while extending the utility of antibiotics into the future. **Contact:** Cathy Gawronski, cgawronski@axdx.com

Booth 41.....Global Focus Marketing and Distribution

GFMD has the Silencer Centrifuges featured. Quiet, robust, dependable, stat and batch specimen processing. Also ImmunoConcepts autoimmune disease testing product line, IFA ANA DNA ENA ANCA fluorescent and light microscopy. IFA automation with AFT 2000/3000 automated pipetting platform and Image Navigator automated microscope. Demo slides available for review **Contact:** eileen.kearfott@gfmd.com

Booth 42.....Nikon Instruments, Inc.

Nikon presents the Eclipse CiL microscope w/unique ergonomic design allowing the microscope to fit the user rather than force the user to fit the microscope. The incredible view provided by Nikon's propriety CFI60 optics is enhanced by the new LED light source and fly-eye lens providing cooled/even illumination over the entire field of view.

Contact: Microscopysales@nikon.com

Booth 43.....Microbiology International

Got anaerobes? Stop by the Microbiology International booth to learn more about the Whitley A35 Anaerobic Workstation and EZ-Campy Automatic Jar Gassing System for your anaerobic and microaerophilic cultures. We have a solution for every lab! Whitley Anaerobic Workstations feature a strict anaerobic environment, no-bake catalyst, maintenance-free humidity control, touchscreen interface, and gloveless operation. Multiple workstation sizes available for your lab's needs. Our EZ-Campy jar gassing system is perfect for small batches of anaerobic and microaerobic samples. The EZ-Campy System dramatically reduces running costs and creates the perfect conditions for growing anaerobes or microaerophiles in just 2 minutes. **Contact:** Joyce Hahnel, joyce.hahnel@800ezmicro.com

Booth 44.....Otsuka Medical Device Division

The BreathTek® UBT for H. pylori Kit (breath test) along with the POC One infrared spectrophotometer instrument detect a common infection of the stomach called Helicobacter pylori (H. pylori). A licensed health care practitioner may prescribe BreathTek UBT to test for H. pylori infection in patients aged 3 years and older. A patient may need to take the test again 4 weeks after completing antibiotic therapy to monitor whether H. pylori has been wiped out. **Contact:** sam.slattery@otsuka-us.com

Booth 45.....Gold Standard

Gold Standard Diagnostics provides comprehensive diagnostic solutions that improve lab efficiency and minimize overall costs. Through an extensive product menu and outstanding customer service, we solve real laboratory problems. The result is a seamless laboratory experience achieved through our integrated approach. GSD provides a total solution that improves laboratory efficiency while maintaining low total cost of ownership for instrumentation, consumables and support. Our excellent customer service and support is with you from beginning to end to ensure immediate and maximum benefit for your operation. At Gold Standard Diagnostics, we strive to simplify your laboratory experience.

Contact: info@gstdx.us

Booth 46.....Serosep, Ltd

Serosep is a manufacturer and global distributor of laboratory diagnostic solutions. As an innovative company, Serosep seeks to improve the lives of its customers by offering easy to use diagnostic solutions that are developed to improve the efficiency and modernization of clinical laboratories with true benefits to the hospital, scientist and patient. Serosep is a thriving company with a constantly expanding workforce and products that are sold across five continents boasting sales in 35 countries.

www.serosep.com/us

Contact: KathleenZ@PassportDx.com

Booth 47.....**Great Basin**

Booth 48.....**Pro-Lab**

Established in 1974 Pro-Lab Diagnostics is dedicated to provide high quality, cost effective immunodiagnostic and molecular products to hospitals, universities, biodefense and other investigative laboratories. Meet your Pro-Lab team and learn about our featured products such as the Prolex™ Latex Agglutination Kits, Microbank™ Storage System, Freezers, Biosafety Cabinets, and an array of laboratory essentials.
Contact: Daniel Portillo - daniel.portillo@pro-lab.us

Booth 49.....**Medical Chemical Corporation**

Medical Chemical Corporation (MCC) is a manufacturer of laboratory stains and reagents. We are a leader in the development of parasitology transports and stool preservatives. We developed zinc based PVA in 1991 and now have developed and patented the “gold standard” for single vial preservation....”Total-Fix”. Total-Fix contains no mercury, PVA or formalin. It is compatible with permanent staining, fecal concentration, FA and antigen for giardia/cryptosporidium and molecular panels. MCC also manufactures fecal concentration systems, Bacti stains, and a FA test kit for giardia/cryptosporidium. Visit www.med-chem.com
Contact: MarkPerry@med-chem.com

Booth 50.....**LabCorp**

Booth 51.....**Cepheid**

In institutions all over the world, the conversation on healthcare and diagnostics is changing. And that’s a good thing. As a game-changing diagnostic technology, the GeneXpert System can impact nearly every department — from the pharmacy to housekeeping. Cepheid’s GeneXpert System delivers faster, more accurate results that improve patient outcomes, operational efficiencies, and reduce the overall cost of care. This is helping to move the conversation beyond the laboratory walls to examine the total institutional benefit that on-demand molecular diagnostics can deliver. Visit our booth to find out how.
Contact: Chris Germak, MT ASCP, Christopher.germak@cepheid.com

Booth 52/53.....**Beckman Coulter Microbiology**

For over 30 years, MicroScan panels have provided gold-standard bacterial identification and susceptibility products, confronting emerging resistance with speed and accurate results the first time. Count on MicroScan for unmatched experience, expertise, and selection. MicroScan provides high-quality performance and reliability for laboratories of every size. **Contact:** smgabriel@beckman.com

Booth 54.....TV Lounge

Booth 55/56.....Roche

As a global leader in healthcare, Roche Diagnostics offers a broad portfolio of tools that help healthcare providers in the early detection, prevention, diagnosis and treatment of diseases. In Molecular Diagnostics, we are driven by a vision of working with laboratories like yours to improve the medical value you offer in virology, women's health, microbiology, and genomics and oncology. We continue to meet unmet needs through our investment in research, innovation, and scientific excellence with the goal of supporting your important role in improving patient's lives.

Contact: ryan.stephens@roche.com

Booth 57.....Olympus America

At Olympus, we are dedicated to your work, your vision – your science. Through innovation and service, we seek to aide in your discoveries, advance your research and inspire you to explore new possibilities. Our wide range of imaging solutions are built with the optical excellence and proven application expertise you have come to expect and depend on. Let us be your partner in discovery. For more information, stop by our booth today or visit www.olympus-lifescience.com.

Booth 58.....T2 Biosystems

At T2 Biosystems, our mission is to save lives and improve healthcare by enabling patients to receive the right treatment faster than ever before. T2 Biosystems offers the ONLY species-specific sepsis pathogen diagnostic panel -- requiring no blood culture -- delivering faster, easier and more accurate results in 3-5 hours. Run on the automated T2Dx® Instrument utilizing T2MR® technology, the T2Candida® Panel identifies the five clinically relevant species of Candida direct from whole blood.

Contact: djoesting@t2biosystems.com

Booth 59.....Qnostics

Qnostics specializes in the development of quality molecular controls provided in a ready-to-go format for the evaluation and monitoring of molecular assays. Our molecular controls are used for assay evaluation, verification and validation. Well characterized whole pathogens mimic clinical samples and monitor the enter testing process. For further information, **Contact:** Caterina Netti-Hibbert, PhD at caterinanetti@qnostics.com or by phone: (800) 693-4193.

Booth 60.....Trinity Biotech

Trinity has high quality and cost effective products to allow your lab to streamline operations; Autoimmune and Infectious Disease – large menu of tests by IFA, EIA and Western Blot, and Automation; Premier for HgbA1c – no interferences from hemoglobin variants, rapid throughput, autoverification; Resolution for Hemoglobin Variants – new platform; HPLC/MS-LC kits, QC and calibrators, Trinity is the exclusive US Distributor for ChromSystems; Point of Care tests for HIV and Syphilis; Chemistry Reagents for open systems.

Contact: Marsha Mulherin marsha.mulherin@trinityusa.com

Booth 61.....Abbott Molecular

Booth 62/63.....ThermoFisher

Thermo Fisher Scientific is the world leader in serving science. Our mission is to enable our customers to make the world healthier, cleaner and safer. Through our Thermo Scientific brand, we help customers accelerate innovation and enhance productivity. Thermo Fisher Scientific supplies innovative solutions for the world's clinical, academic research, pharmaceutical and biotech industries. With applications that span the microbiological processes –from microbial detection to susceptibility testing– we provide a broad range of products and services that support new drug development and clinical trials through to patient diagnosis, treatment and antimicrobial resistance monitoring.

Contact: joan.maxwell@thermofisher.com

Booth 64.....Copan

With a reputation for innovation, COPAN Diagnostics is the leading manufacturer of collection and transport systems in the world. COPAN's collaborative approach to innovation in preanalytics has resulted in patented FLOQSwabs™, ESwab™ and UTM™ Viral Transport Media, and laboratory automation, WASP@DT and WASPLab™ have been proven to advance the quality of traditional and contemporary microbiology assays.

Contact: jacqueline.hinz@copanusa.net

Booth 65.....iCubate

Company statement: iCubate developed arm-PCR, an innovative multiplex PCR technology for use on the iC-System - a fully automated molecular diagnostic instrument. The integrated iC-System enable extraction, multiplexed amplification and detection in a closed, disposable cassette. Clinical and research possibilities are infinite.

Contact: Dave Lockhart, david.lockhart@icubate.com
